

**Quarter 1 – Interim Release, 2004-2005 Programming Changes**  
**Interim Implementation Date: January 15, 2005**

1. **Issue:** Change adult and children's assessment programs to allow both Intake and Discharge assessments on the same day.

**Resolution:** An INTERNAL 4-digit field SEQ-NO will be added to the program files to allow for Intake and Discharges to occur on the same day.

**EDTS** file and file layout will be updated to reflect the addition the SEQ\_NO. See *EDTS file and file layout for details*.

**Display:** The sequence number will be displayed as part of the 346P: MH Record Detail For R&DM (accessed from the INQ button on the interim screen).

- 
2. **Issue:** Due to the MHMR consolidated effort the child 'Referral Source' drop down list will need to be changed:

**From:** TDMHMR Facility to MH Facility.

**Change:** Drop down list.

- 
3. **Issue:** Error codes and messages need to be standardized for the CARE system.

**Resolution:** Change all Assessment and Diagnostics warning messages starting with 999### to standardized error code/message for CARE system procedures Change warning messages to error codes and log errors.

**Code changes:**

| Old Code | New Code | Message   |
|----------|----------|---|
| 99901    | 11729    | WARNING: CURRENT DIAGNOSIS IS NOT IN A CATEGORY THAT CALCULATES LOC-R   |
| 99902    | 11730    | WARNING: LOW SCORES ON BOTH OYPSS AND OYFS ARE INCONGRUENT WITH OTHER DOMAIN SCORES   |
| 99904    | 11731    | WARNING: DOMAIN SCORES INDICATE THAT TREATMENT MAY NOT HAVE BEEN COMPLETED SUCCESSFULLY   |
| 99903    | 11732    | WARNING: HIGH SCORES ON BOTH OYPSS AND OYFS ARE INCONGRUENT WITH OTHER DOMAIN SCORES  |
| 99905    | 11733    | WARNING: AUTHORIZATION WILL EXPIRE ON 19TH BIRTHDAY (IN ## DAYS)  |
| 99906    | 11734    | WARNING: SCORES INDICATE THAT THIS PERSON WHO IS ELIGIBLE FOR A SERVICE PACKAGE IS CURRENTLY EXPERIENCING A CRISIS TREAT THE CRISIS FIRST, THEN READMINISTER THIS ASSESSMENT AFTER THE CRISIS HAS BEEN RESOLVED |
| 99908    | 11739    | WARNING: CHECK ACCURACY RDM ASSESSMENTS DATED AFTER THIS DIAGNOSIS  |

- 
4. **Issue:** The children's TRAG calculator has been modified to always calculate a Crisis when the appropriate dimension ratings have been entered.

**Resolution:** Change the calculations in WebCARE to match the updated Final Version of the TRAG calculator.

- 
5. **Issue:** Tracking data entry for Diagnostics on Axis III, Level 1.

**Resolution:** Require data entry on Axis III, Level 1 on all completed Adult and Child **update** diagnoses. If there is no physical diagnosis or ICD-9 diagnosis, then the word "None" may be entered on Axis III, Level 1. An edit will be placed on this field effective 1/15/2005 requiring data entry.

**Note:** This will NOT be a required data field for admission diagnoses.
